July 19, 1979

Joshua Lederberg, Ph.D.  
President  
Rockefeller University  
New York, New York 10021

Dear Dr. Lederberg:

I have the pleasure of inviting you to be a distinguished guest speaker at this year's (1979-1980) Cell Biology Series at Baylor College of Medicine. During this visit we would hope that you could present a formal seminar on your recent work and meet with a number of our faculty, fellows and students who have followed your work with great interest. We will provide a \$300.00 honorarium in addition to reimbursement for your travel, lodging and miscellaneous expenses. Upon receiving a favorable response to this invitation, you will be contacted by telephone concerning an exact mutually acceptable date (please provide your current telephone number). We would appreciate hearing from you as soon as possible.

I sincerely hope that you can arrange to visit with us as I would personally enjoy discussing some of our mutual interests.

Best regards,

*Bert W. O'Malley*
